Metal Mounting Back Boxes for Access Control

Product Overview

The OCB Back Box Series is designed for secure wall mounting of exit switches and access control buttons. Manufactured from high-strength zinc alloy with a matte chrome-coated finish, these back boxes provide a clean, durable, and professional installation solution for indoor access control environments. Available in ultra-narrow, narrow, and standard widths to accommodate different device formats.

General Specifications (All Models)

Parameter	Specification
Device Type	Metal mounting back box
Installation Type	Wall mount
Material	Zinc alloy
Surface Finish	Chrome-coated, matte appearance
Installation Environment	Indoor
Intended Use	Exit switch and access control button mounting
System Compatibility	Access control exit switches

Model Comparison Table

Model	Compatible Switch Size	Dimensions	Format Type
OCB-B29	86 mm standard (ultra-narrow)	92 × 29 mm	Ultra-Narrow
OCB-B40	86 mm standard (narrow)	115 × 40 mm	Narrow
OCB-B70	86 mm standard	115 × 70 mm	Standard

Key Features

- Durable zinc alloy construction

OCB Back Box Series: OCB -B29 | OCB-B40 | OCB-B70

Metal Mounting Back Boxes for Access Control

- Matte chrome-coated professional finish
- Standard 86 mm switch compatibility
- Available in three width options
- Clean wall-mounted installation
- Designed for low-voltage access control systems

Typical Applications

- Push exit buttons
- Access control release switches
- Electric strike activation buttons
- Commercial office entry systems
- Industrial door control systems
